CARE FOR SKIN AND HAIR

# THE BEGINNING

---

- We are proud to be an innovative Mexican artisanal company in the creation of 100% natural skin and hair care products helping ecology. Using base liposome technology, extracts, and natural oils. They provide us with hydration, nutrition, elasticity, softness, and firmness among other qualities.
- Avoiding the use of petroleum products.

# NATURAL GUASP

---

- Initiated activities in the year 1995, as a result of my daughter's dermatitis and unsuccessful, tried of all kinds of products without any result.
- Chemical Engineer is my profession and I started with an investigation of the liposomes (areas with a membrane composed of a double layer of phospholipids, a hydrophilic outer layer and an inner layer lipophilic) with the great advantage of being a carrier of different substances between the inside and outside of the cell, obtaining better and effective results.
- After managing the eradication of dermatitis, the production of a wide range of products for skin and hair care was initiated.

# VISION AND MISSION STATEMENT

---

- **Vision:** To create a line of products for skin and hair care. Giving a solution to problems of intolerance to the petrolatum contained in most of the creams.
- **Mission:** Consolidate NATURAL GUASP as a company that takes care of the environment and protects the human being with quality. Taking a position at the international level.
